# Global Defense Solutions & Services

## Unrivaled Intelligence

The scalable and customizable modules within AWIN include:

- **Insights:** Aviation Week Intelligence Network (AWIN) is an integrated, online platform providing integral news, analysis, company and program profiles, and insights into the marketplace with additional modules for deeper market intelligence. Membership includes delivery of *Aerospace Daily & Defense Report*, a daily market briefing.
- **Program Profiles:** comprehensive view into hundreds of today's top global airframe engine programs, including supplier roles, specifications timelines and budget data.
- **NEW! Country Profiles:** crucial information and analysis on military requirements, contracts, programs, and procurement policies in key geographies to simplify understanding the key political, economic, budgetary, and strategic trends shaping global defense markets
- **NEW! Budgets:** contains the top 50 defense spenders globally encompassing over 95% of military spending worldwide from the year 2000 out to a 10 year forecast.
- **NEW! Contracts:** covers international defense contracts designed to provide a view of procurement activity. Identify which companies are securing contracts in key geographies, domains, and market segments.
- **Fleets:** Fleet Discovery simplifies researching military aircraft histories and monitoring global fleets so you can capitalize on market demands and increase revenue.
- **Forecast:** the Military Fleet & MRO Forecast contains the most reliable 10-year outlook of the industry. Analyze MRO demand by aircraft, region, engine or component, or view major engine and air frame event projections.
