

# Grades of Membership

Our graded membership is based on your experience in the industry. To find out which grade you are eligible for please email a copy of your CV to: [membership@aerosociety.com](mailto:membership@aerosociety.com) or join us right now as an Affiliate, our non-graded membership.

**Apply now: [www.aerosociety.com/create-account](http://www.aerosociety.com/create-account)**

\*Students and apprentices can join us for free and enjoy the benefits of membership if studying or training full-time. If you are studying or training part-time, we have a paid for Student Affiliate membership.

For more information on applying for membership and professional registration contact:

**Email: [membership@aerosociety.com](mailto:membership@aerosociety.com)**

**Tel: +44 (0)20 7670 4384**

## Join the RAeS

**The world's foremost membership organisation dedicated to Aerospace, Aviation and Space**

Over 25,000 members drawn from many sectors of the aerospace, aviation and space communities

[www.aerosociety.com](http://www.aerosociety.com)

# Membership Benefits

## Information and Knowledge

- Monthly AEROSPACE magazine
- Online resources including news and e-books
- The National Aerospace Library
- 21 Specialist Groups stimulating debate

## Continuing Professional Development

- Conferences & Lectures at Branches, RAeS HQ and online
- Mentoring support and training
- Online platforms for recording development
- Opportunities to join Committees and Specialist Groups

## Recognition and Support

- Free careers guidance and support for any stage of your learning, development or career and access to scholarships
- Professional Registration with the Engineering Council UK
- Honours, Medals & Awards
- Post-nominals with graded membership

# Aeroversity

Aeroversity is our learning management system. It is available for FREE to all members via an app with online and offline access. This is a place for you to record your continuing professional development and view specialist materials with access to eBooks and journals, recorded webinars and lectures, podcasts and eLearning modules and courses.

# Branches and Divisions

The Society hosts events at 37 Branches in the UK and 67 worldwide. Our Branch network is integral to the working of the Society, delivering a programme of virtual and in person lectures and events, serving most of the major hubs of aerospace activity. The Branches provide a range of interesting events on many subjects to cater for all interest areas.

# Our Members

The Society's membership profile is drawn from a broad range of organisations and diverse fields of expertise including engineering, design, aircrew and air traffic control, along with professions that serve the aerospace industry, such as law, finance, marketing and recruitment. The Society:

- **Plays a leading role in influencing opinion on aerospace matters**
- **Promotes the highest possible standards in all aerospace disciplines**
- **Provides specialist information and a forum for the exchange of ideas**

# Specialist Groups

Joining a Specialist Groups gives our members the chance to participate in events and debate in their areas of interest.

- Aerodynamics
- Aerospace Medicine
- Aeronautical Heritage
- Air Transport
- Air Law
- Air and Space Power
- Airworthiness & Maintenance
- Flight Operations
- Flight Simulation
- Flight Crew Training
- Flight Test
- General Aviation
- Greener by Design
- Human Factors
- Human Powered Flight
- Propulsion
- Rotorcraft
- Structures & Materials
- Space
- Unmanned Aerial Systems
- Weapon Systems & Technology

**Erika Armstrong FRAeS**

"Aviation changed my life on so many levels and I got to see things most people can't even imagine. I'm so grateful that I found aviation and I want to be able to show others how incredible the industry is!"
